MONTHLY REPORT

[REDACTED]

25X1

PAR 225

7 August 1964

SUBJECT: Microdensitometer Training Program

TASK/PROBLEM

1. Prepare and conduct training programs in the fundamentals of operation and the application of microdensitometers for photo interpretation.

DISCUSSION

2. A manual has been written to accompany the course given in the operation and applications of microdensitometers. Trainees are given a copy of this manual for their personal use.

3. Two training sessions have been held for a total of nine trainees. Included in these sessions were chalkboard discussions, actual operation of the [REDACTED] Microdensitometer, Model 5, and tours of installations of microdensitometers at the [REDACTED]

PLANNED ACTIVITIES

4. Conduct the training session scheduled for 10 August through 13 August 1964.
